About Me

I am QA Engineer with experience in WEB/Mobile testing. I have a strong knowledge of testing theory, test design techniques, and test documentation. I have experience working with a team using the scrum process. I have experience in personnel management, so I can easily prioritize tasks and complete them on time.

Expertise

- Manual/Automation QA
- Black/Grey/White Box testing
- Web/Mobile testing
- Test design techniques
- Test documentation (test plan, test strategy, test case, check list, bug report, e2e, execution rate, pass rate)
- SDLC, Waterfall, Agile (Scrum, Kanban)
- SQL
- Tools: Jira, TestRail, Git/Github, Terminal, Visual Studio Code, Postman, Playwright, Docker
- Web Understanding: (Client-Server Architecture, XML, JSON, REST, CRUD)
- Java Script
- HTML/CSS

Education

- Chernivtsi National University
Master's degree in systems software
2010 - 2015

Languages

- English: B1
